Photography by Karen Morrison. Photo assistant Alyssa Zemon. Hair by Lisa Marie Chernicky-Taylor. Styling by Erika Doria. Location Paradise Point Resort, Mission Bay

Living in San Diego is all about maximizing our beach-studded landscape and temperate climate. Well, this glamour-loving girly girl recently moved to a new pad with water views so my holiday wish list this year is filled with elegant indoor and outdoor home accents,

perfect for my new balcony. As for sporting high-heeled pumps at the beach, I wouldn't recommend it. But then again I feel at home in just about anything, so long as there's water nearby.

Rebuild True to its "building for a social purpose" mantra, this San Diego-based, nonprofit collective is all about creating socially and environmentally responsible spaces that unite communities and inspire interaction — from homes to class-

rooms to shelters to public gardens. Rebuild's volunteer designers work hand-in-hand with like-minded organizations, architects and other designers, providing both in-house design services and education.
