Resort openings, agri-tourism and experiential travel packages

By NINA KOKOTAS KAHN

A new locally focused spa treatment is all the rage at the 462-room **Paradise Point**, set on San Diego's Mission Bay. The two-hour Island Origins experience starts with a guided botanical tour of the resort's grounds, where remedial specimens are hand-picked from some 600 types of exotic foliage. The tour is followed by a 50-minute massage, foot scrub and scalp treatment. *(858) 274-4630; paradisepoint.com*
